

Computer Network Systems & Security, AAS

Award Granted: Associate in Applied Science in Computer Network Systems and Security

Major code: 03/324

Credits/Contacts Required: **65/67**

CIP Code: 151202

Description

As more information is made available on networks, protecting that data becomes even more important. This intense "hands-on" program prepares graduates for employment in information technology fields ranging from PC bench technician, routed network technician, wireless network technician, security specialist, computer forensics specialist, network administrator, web server/database administrator or management information specialist, or information technology administrator positions. A Co-op/Internship is required. Graduates of this program receive certification as an Information Security Professional from the Committee on National Security Systems.
