

Automotive Master Technician Certificate

Why Automotive Master Technician?

With state regulations, certification of auto technicians is required by law. The Automotive Master Technician certificate program takes two years to complete and emphasizes the development of skills in service, repair, and diagnostic procedures. This program provides an opportunity for students to prepare themselves for technician certification exams in all 8 areas. This program curriculum is also certified by the National Automotive Technicians Education Foundation (NATEF) at the Master Level.

Why Bay College?

The [Automotive Master Technician certificate program](#) at Bay College is designed for the automotive student that wishes to become Master Certified in all eight auto areas. Year by year, as automotive systems become more sophisticated, there is an increasing demand for trained technicians who have the knowledge and skills to service the ever changing and improved products. Therefore, this certificate prepares the successful graduate for various jobs in the automotive service field, including: Dealership service technician, assistant or parts department manager, and a variety of skilled jobs in automotive manufacturing. By obtaining this certificate in all 8 areas, it will make you more marketable in the automotive industry.
