

Business

Associate in Applied Science Degree

Why Business?

This 2-year Associate in Applied Science in Business degree is perfect for students who wish to explore a wide array of business topics and learn about the many aspects involved in the business world. Students will learn the basic working knowledge of general business theory and practice, discover how the use of current technology is appropriate to business operations, and gain the ability to communicate effectively in an organization. Eligible students can also complete an internship or Co-op to gain real-world experience and see first-hand how businesses in their area operate.

Why Bay College?

The [Business program](#) at Bay College is designed to build skills that are suited to assist students in their professional business career. There are four business degree options for students take at Bay College. Your instructors will help you develop skills in management, critical thinking, leadership, technological, communication, and other desirable business skills. The range of skills will allow you to prepare for a wide variety of career options, allowing you to choose a business or management career specific to your interests.
